

What is the role of the office in the new reality?

Partner, People Services Leader
KPMG România

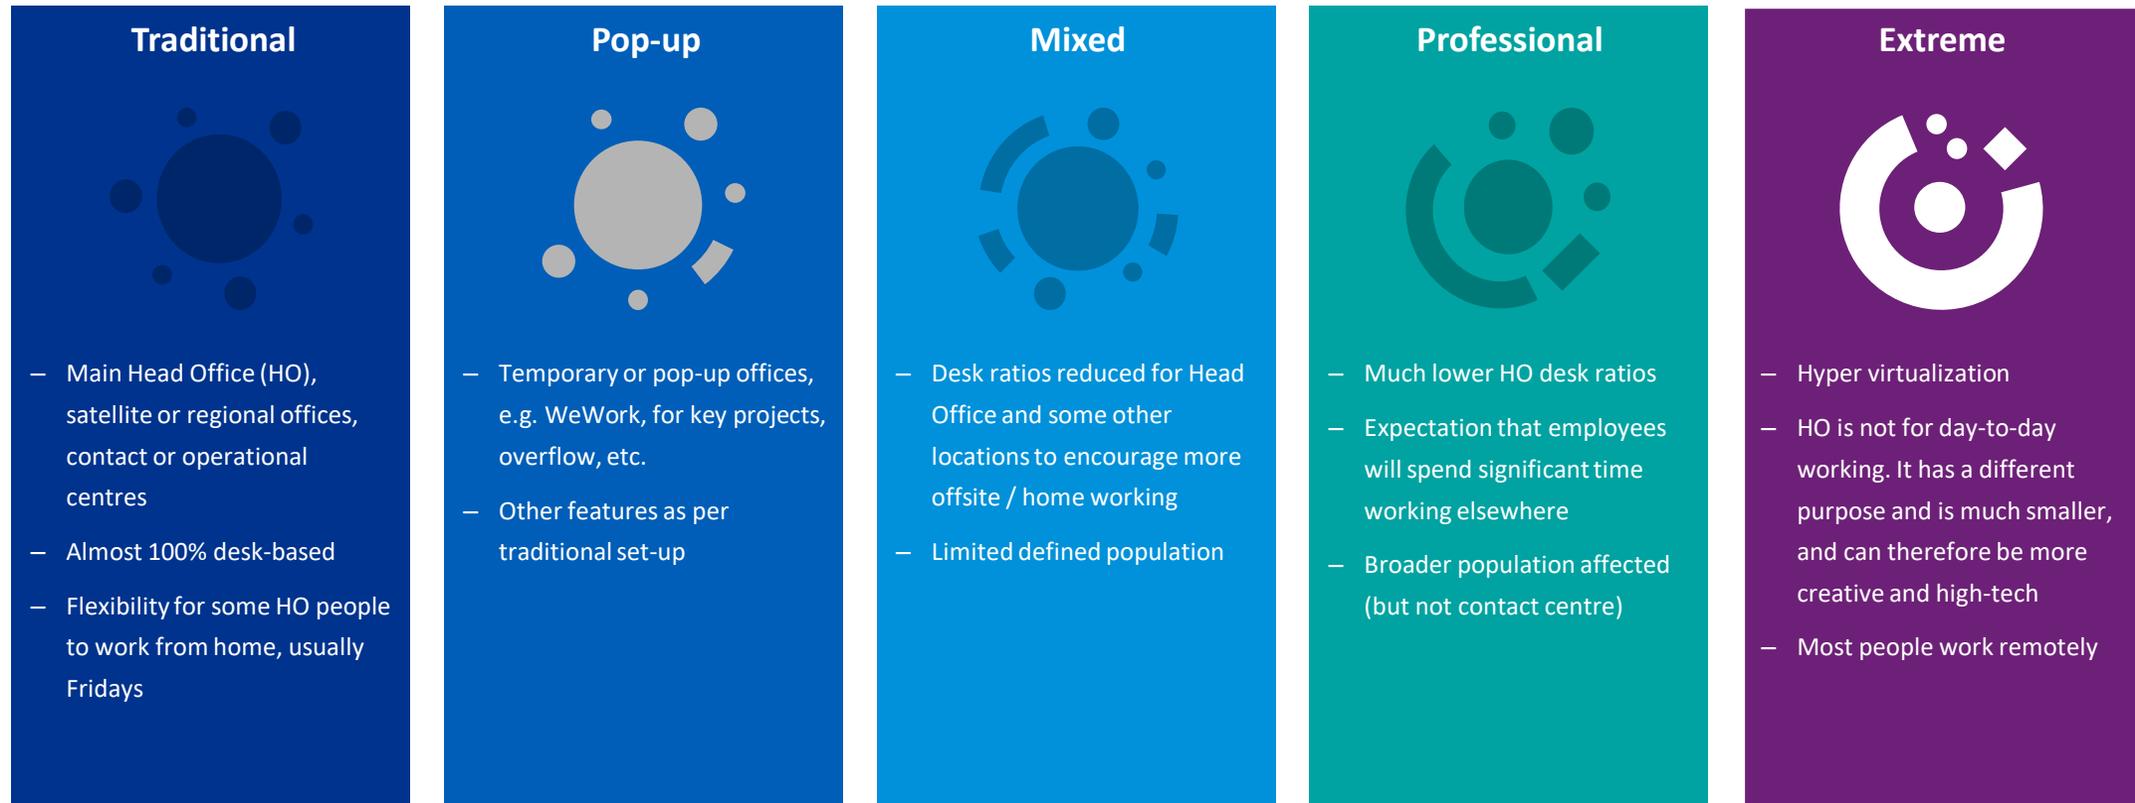

Returning to a new reality: the return to the workplace

As Government measures are relaxed over time, the volume of workers returning to the physical office will increase. However, we predict that due to a change in ways of working facilitated by an improved technology strategy many will opt to spend the majority of their week working remotely.

The workplace of the future

The global impact of COVID-19, and the remote working it necessitates, is set to change the workplace as we know it for good. Many firms who have moved to an 'extreme' remote working model will never look back.

100% working onsite

100% remote

KPMG check-in App

Context

Starting with March national emergency state in Romania, all KPMG employees began working from home.

Anticipating the lifting of restrictions in mid-May, an action plan was set-up for a gradual return to the office.

The KPMG check-in app was built as part of this plan, in order to help mitigate potential risks that come with working in an open space environment.

Benefits

Help employees **keep safe** by booking a desk in advance, for when coming to the office is necessary

Offer group leaders an **overview** over who needs to come into the office and/or go to client premises

Enable **tracking** of incidents, should these arise

Help with **cost control** by understanding what investments in safety & security measures need to be made at any given moment

New Challenges demands new Solutions

Part I: KPMG Check-in App

Features

Employees:

- Book a desk in the office
- Ask for approval for work at client/other premise
- Manage bookings

Group leaders and HR:

- Approve or decline requests
- Overview over team members in office/client premises

Front-desk officers:

- Check-in employees in the office

Reporting (under construction)

Request approval to work from the office or other location

Choosing an office through an interactive map

Choosing a desk is made easy through an interactive floor plan

KPMG COVID-19 Connected

New Challenges demands new Solutions

Part II: COVID-19 Connected Response System

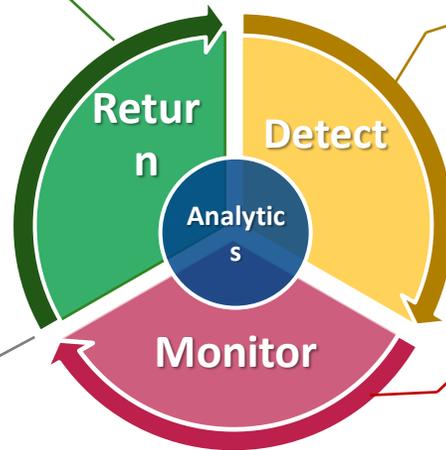

KPMG's solution supports all stages of the infection life cycle. For Organizations this application will enable a fast reaction in case of suspicion, and will support the daily planning of the workforce return, through automated triggering and Analytics

Our Approach

Stage I - RETURN

Will support Companies to keep safe environments, enabling employees to return to their jobs. Will also enable Companies to have an overall perspective on their workforce evolving status and better manage the return to "Normal" by efficiently planning and managing availability

*Permanent Green Card
dependent on scientific capacity to
test & attest immunity*

Stage II - DETECT

Will enable employees to adopt measures to monitor/contain possible infection, through self-diagnosis and proximity triggers (resultant from new outbreaks of infection) and also alert their Organizations for cases of potential infection

Stage III - MONITOR

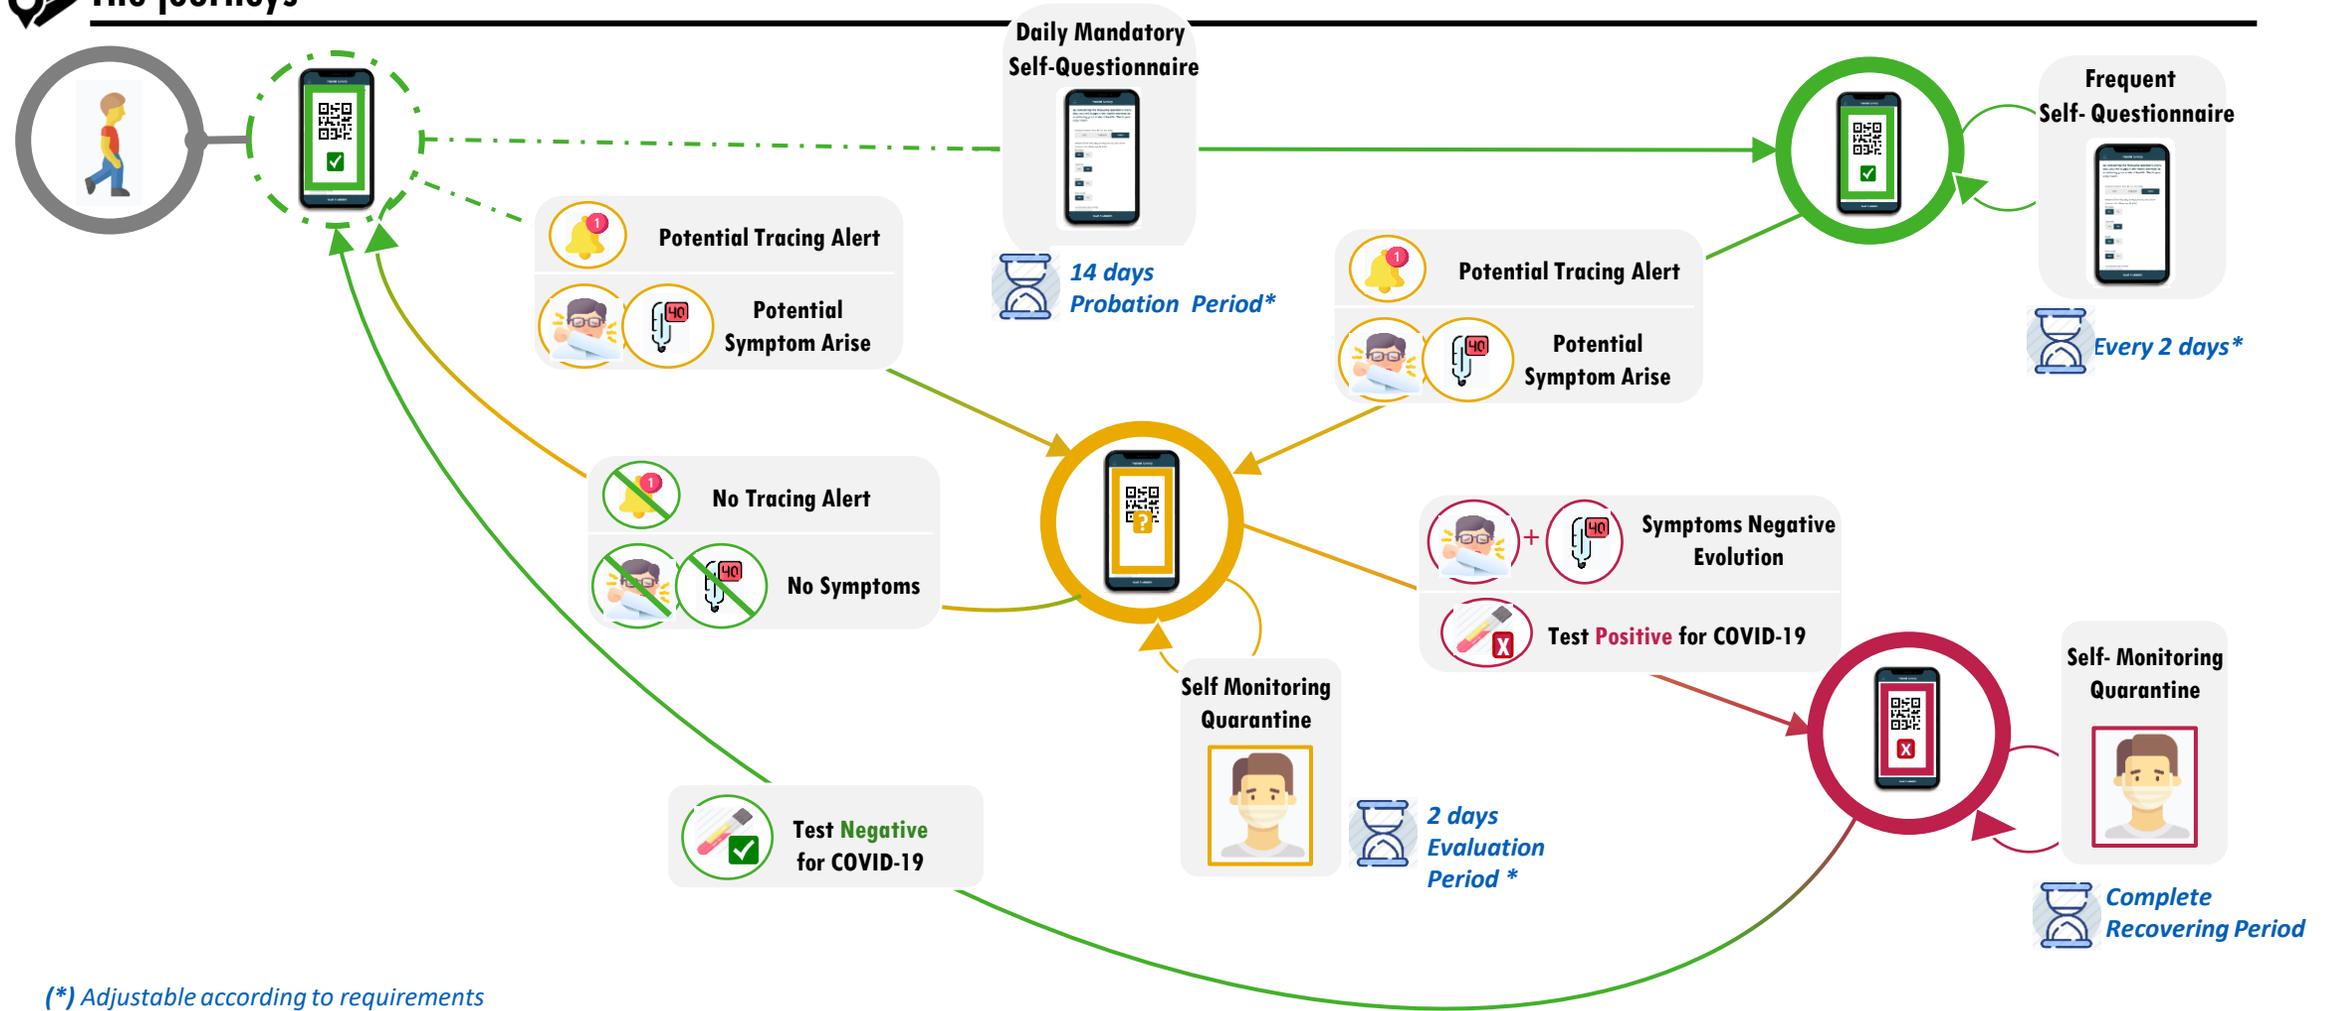

Will enable infected population to self-monitor their symptoms evolution, supported by medical resources, and enable automatic communication of Clinical release through the attribution of a "Green Card"

Trusted Analytics

As all stages are connected, **analytics are leveraged through the complete infection management lifecycle**: for Companies it will be possible to understand at any moment the available workforce, workforce at risk and their geographic distribution.

The Cycle Journey
